**Product Notice: Product Change Notification for Impinj R700 Reader, 4-Port, FCC Region (IPJ-R700-141)**

Dear customer,

This is a formal notification that Impinj has transitioned the Impinj R700 RAIN RFID FCC region reader model to the FGX global reader model which supports both the FCC region (USA/Canada/Mexico) and countries that utilize parts of the 902-928MHz frequency band, such as China and Brazil.

With flexible support for global frequency bands, including FCC, the Impinj R700 FGX global reader model enables Impinj partners and end-customers to minimize complexity and maximize efficiency of deploying multi-national enterprise RAIN solutions. The FGX reader model has the same performance as the FCC reader model.

**Continued support for existing customers:**

- Impinj R700 FCC reader models will be supported under existing 1-year warranties

**Timing:**

The Impinj R700 FGX reader model is available now. The Impinj R700 FCC model is no longer available.

Applicable Product	Replacement Product
Impinj R700 Reader, 4-Port, FCC Region Part Number: IPJ-R700-141	Impinj R700 Reader, 4-Port, FCC and GX Regions Part Number: IPJ-R700-341
