Alternative Products

As an alternative, Impinj recommends the Impinj xSpan RAIN RFID gateway. The Impinj xSpan is a performance upgrade to the xPortal with enhanced coverage, increased control of read zones, and the ability to track bi-directional movement of items along one dimension. The Impinj xSpan has built-in antenna arrays for turnkey

implementation and always-on endpoint monitoring. For a detailed comparison with the Impinj xPortal gateway, please view the Impinj xSpan product brief on the Support Portal.
