Product Change Notification: Select Impinj Monza Tag Chips End-of-Life

Dear Impinj Partner,

This is a formal notification that Impinj has initiated the end-of-life (EOL) process for three Impinj Monza RAIN RFID tag chips:

- Impinj Monza 4i (IPJ-W1535-E00)
- Impinj Monza R6-A (IPJ-W1730-K00)
- Impinj Monza R6-B (IPJ-W1731-K00)

The continued challenges of the global wafer shortage require us to re-evaluate our product offerings in order to best fulfill the needs of our customers. This notification sets the official timeline for the end-of-production of the Impinj Monza 4i, Monza R6-A, and Monza R6-B products.

Impinj Monza 4i

Due to supply constraints, there will be no last-time buy opportunity for the Impinj Monza 4i. Impinj Monza 4E and Monza 4QT tag chips are drop-in compatible and are the recommended replacements for Monza 4i. If you require support in finding the best product for a transition from Monza 4i to other Impinj tag chips, please contact your Impinj account manager.

Impinj Monza R6-A and Monza R6-B

Impinj is announcing the last-time order and last-time shipment period for the Impinj Monza R6-A and Monza R6-B tag chips as outlined below. Impinj Monza R6-A and Monza R6-B orders placed during the EOL period are non-cancellable and non-refundable. Otherwise, Impinj standard sales terms will apply.

Please note the critical milestone dates in the tables below and take the necessary steps to meet your manufacturing needs. We recommend partners transition to the Impinj M700 series of tag chips to replace Impinj Monza R6-A and R6-B.

Impinj Monza R6-A and Monza R6-B EOL timeline:

Milestone	Date
EOL process start date	January 1, 2022
Last date to place orders	June 30, 2022
Last shipment date	December 31, 2022

Please follow the standard Impinj process to place Impinj Monza R6-A and Monza R6-B orders.

If you wish to discuss the upcoming Impinj Monza 6 replacement or your future supply of Impinj Monza tag chips, please contact your Impinj account manager.

How do I get additional information?

Please contact your Impinj account manager or email our support team at support@impinj.com.

Best regards,

Martin Liebl
